

## New Entrance to Parking Garage

A new entrance to the CVG Airport parking garage has opened as of February 28, 2019.

## New Traffic Flow to Garage Entrance

Upon entrance to the CVG Airport grounds, follow orange directional signage to the parking garage.

## Why?

CVG Airport is building a new rental car facility connected to the airport to better serve our travelers. This is a multi-year project so egress at the airport may periodically change due to the construction.

CVG Airport will notify the public via our website ([CVGairport.com](http://CVGairport.com)), social media, and direct email communications to our distribution list when major changes take place. [Click Here](#) to sign up for email updates.
