

## Consolidated Rental Car Facility – Fact Sheet (July 2018)

- Messer Construction is the awarded construction firm for the consolidated rental car facility project at CVG.
- \$165M budget for anticipated construction costs.
- Purpose is to elevate customer experience, eliminate emissions from shuttles circling back and forth from rental car lots and Terminal, continue to make CVG competitive, and provide new front door to the Terminal.
- Overall project includes new entrance road to CVG, customer service building for rental cars, facility for pick-up and returns of rental cars, vehicle maintenance and fueling.
- Facility will be in the space where Terminals 1 and 2 once stood. Approximately 1M square feet for the complete facility, and about 12 acres.
- Estimated project outline, which includes enabling projects:
  - Complete: Exit plaza project in current Terminal garage.
  - Terminal 2 garage partial demo starting August 2018 to make way for the new entrance road to CVG. Less than a quarter of the garage will be taken down.
  - November 2019 roadway project will be complete.
  - June 2019 marks the start of construction of rental car facility.
  - 4Q 2021 anticipated completion and opening.
