PASSENGER AND CARGO GROWTH

CVG served more than 9.1 million passengers in 2019, a 34% increase since 2016. As ranked by the U.S. Department of Transportation, the airport continues to have the lowest average airfare of any airport in the Tri-state region. With a track record of increases in air carriers and routes, as well as continuously declining average airfares, CVG generally serves 38 of the top 40 U.S. markets with 180+ peak day departures to more than 50 nonstop destinations.*

Growth in air cargo has also played a significant role in the transformation of CVG. With two air cargo super hubs operating out of CVG (Amazon Air and DHL) and phase one of the \$1.5 billion Amazon Air facility slated to open in 2021, CVG will continue to be a logistics leader in the air cargo industry. In 2019, the airport handled more than 1.2 million tons, growing 53% since 2016. As of August 2020, cargo has increased by 13.4% over 2019.

LAND DEVELOPMENT

An aerial view of the CVG footprint showcases how aviation-connected growth, combined with a strategy to lease airport property, has transformed the CVG campus in recent years.

WORKFORCE DEVELOPMENT

CVG is committed to meeting the workforce needs of our community. Through the creation of the Strategic Workforce Collaborative in 2018, CVG is working with the more than 70 employers in need of talent on campus, along with local educational institutions, to create a vibrant workforce community, providing gainful employment and growth opportunities to diverse talent in the region. The creation of the CVG Job Portal is one outcome of this group. This Job Portal serves as a one-stop shop for job seekers interested in opportunities available on and around the airport.
